

Name: Handy Claude Marie Milliance

Address: Niterói, RJ - Brazil

E-mail: milliance23@gmail.com

Phone: +55(21) 9 7214 1165

Nationality: Haitian

Goal

I'm looking for a Full Stack Development position, and I want to gain more experience in developing applications both in the Front-end and Back-end. I value teamwork and a good relationship with team members. I also hope to bring a little of my previous professional experiences and a little of everything I learned.

Academic education

- Computer Science: Federal Rural University of Rio de Janeiro, 2014 - 2022.

Technical courses

- Full Stack Development : TOTI, 04/2022 – 08/2022

Content's course: Application's development using **React** and **Node.js**

- Full Stack Java + Angular Development : Bootcamp Santander,

08/16/2023 - 10/22/2023

Content's course: Application's development using **Angular** and **Java** with a great approach to design patterns.

Professional Experiences

- **Front-end Developer (Home Office):** Crosoften, 30/04/2024 – 23/08/2024 (Legal Entity).

Main activities: Interface's Development (Front-end), and Back-end integration.

Methodology used:

- Daily meetings to discuss sprints, pending issues and next steps .
- Development of interfaces and integration of each component .
- **Commit** of results achieved .
- Presentation of results to customers .
- Implementation of possible corrections requested by customers .

Technologies used: Angular, Node.js

- **Full Stack Developer:** Meraki Sistemas Inteligentes, 05/2023 – 05/2023 (PJ)

Main activities: Development and Maintenance of Software and Applications.

Technologies used: Angular, C#

- **Freelance Developer:** NODRIC STUDIO, 11/2022 – 12/2022

Main activities: Development of a website on the WIX platform, for an Architecture company.

Technologies used: Html, Css, Javascript.

- **Web Development Intern** : Attorney General of the Municipality of Nova Iguaçu, 04/12/2021 – 07/31/2022

Main activities developed during the Internship:

- Assistance in the development of systems for the needs of the Prosecutor's Office, as well as support and maintenance of systems.
- Assistance in the development of the Institutional Website.
- Provision of support to Public Prosecutor's Office employees, aiming to find technological solutions to solve various problems, that arise in daily work.
- Support for the databases on which the Prosecutor's Office, systems are based, developed by the IT team.
- **Technologies used:** WordPress, Html, CSS, Javascript, Java, Spring Boot

Volunteering

At college, from the end of 2015 to the beginning of 2020, I was a scholarship holder at **PET Cnoexões Baixada**, a Multidisciplinary Tutorial Education program bringing together students from different courses to develop Teaching, Research and Extension activities.

At the time, I participated in the **Southeast PET**, where I was part of the monitoring team to help with the accreditation and registration of people who wanted to participate in the **Southeast PET** lectures and workshops.

This experience lasted a week and was very rich in learning, because it was a time to leave academic comfort and meet and work with other people.

Skills

Java - Angular - React.js - Javascript - MySQL - MongoDB - WordPress -
Node.js

Languages

Portuguese(advanced) - French(fluent) - Creole(fluent) - English(basic)
